

With $v_n = \frac{2\pi}{n} \cdot v_{n-2}$

When $n < 2\pi$ then $\frac{2\pi}{n}$ greater than 1
 ≈ 6.28

When $n > 2\pi$ then $\frac{2\pi}{n}$ less than 1

At $n=5 \Rightarrow v_5 = \frac{2\pi}{5} \cdot v_3$
 $= 1.256 \cdot 4.1888$
 ≈ 5.264

At $n=6 \Rightarrow v_6 = \frac{2\pi}{6} \cdot v_4$
 $= 1.047 \cdot 4.9348$
 ≈ 5.1677

At $n=7 \Rightarrow v_7 = \frac{2\pi}{7} \cdot v_5$
 $= 0.898 \cdot 5.264$
 ≈ 4.7246
